		<input checked="" type="checkbox"/> Pedagogy	<input type="checkbox"/> Time

## What does this do?

The Microsoft Educator Center is a free online professional development that enables educators to undergo training, find resources, and earn badges and certificates on a range professional development topics.

## How can it help?

Educators can attend skills development and training courses to support them to use technology for enhancing the experience of their students. They can select 'learning paths' to get inspirations on how technology can increase collaboration, creativity, and inclusivity in their learning spaces.

## An example in practice

An educator interested in organising a virtual field trip can use the sample lesson plan in the Educator Centre. The lesson plan contains step-by-step guide to setting up the virtual field trip. It suggests pre and post field trip activities, resources to expand learning, and a link to virtual field trips in museums, zoos, and parks across the globe available through Skype in the Classroom.

## Where can I find this?<sup>1</sup>

Access the hub via <https://education.microsoft.com/en-us>

[Correct as at 22 April 2020].

Educators can use their school email address to create an Office Education 365 account, which can be used to sign into the Education Center.
